### **EXAMINER'S AMENDMENT**

1) An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In order to ensure that the claims are listed in the correct numerical order, The application has been amended as follows:

#### **IN THE CLAIMS:**

Claim 2 please delete the numeral "4" and replace with the numeral 1.

Claim 3 please delete the numeral "4" and replace with the numeral 1.

#### *Reasons for Allowance*

2) The following is a statement of reasons for the indication of allowable subject matter: Claim 1 which has been re-written into independent claim 4 recites a critical step "...wherein the single crystal is pulled with subsidiary heating the crucible by the subsidiary heating means in addition to the heating by the heater surrounding the crucible for a period after a ratio of a weight of the growing crystal during the pulling of the crystal relative to a weight of raw material melt before the growing becomes 60% or more."

Nowhere is it found in the prior art that this critical step occurs before the growing of the raw material melt prior to 60%.

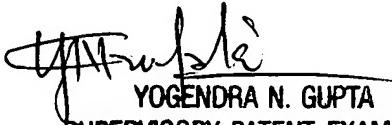

The prior art cited by examiner does not explicitly teach nor obviate this critical limitation in the method for growing a semiconductor single crystal. The closest references, Kojima (US Patent No. 6,458,202), Ito (JP 01040668), and Schupp (US Patent No. 6,562,125) discloses teachings related to Cz method of pulling a single crystal silicon ingot having a uniform thermal history and as noted by applicant's remarks the combination of the Kojima, Ito, and Schupp references obviated the claims as being unpatentable. But they did not disclose a teaching as cited in claim 1's limitation which was incorporated into the independent claim.

Thus it is the examiner's position that this case is in condition for allowance.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to G. Nagesh Rao whose telephone number is (571) 272-2946. The examiner can normally be reached on 9AM-5PM.
